## URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

If you must have your meat every day eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

## Just Lift the Receiver off the Hook

THE Bell telephone is so simple that a child or servant or blind person can operate it as well as you can. Just lift the receiver off the hook and a trained operator responds instantly, prepared to render efficient service such as only human intelligence can produce.

In the dead of night you can use the Bell telephone, and even if a light is not convenient you have the assurance that the operator will respond when you lift the receiver from the hook.

Recently burglars who entered a Jacksonville, Fla., store accidentally knocked the Bell telephone receiver from the hook and the intelligent operator failing to get a response, called the police and notified the owner of the store.

Such human service as this makes the Bell telephone an indispensable business asset and an invaluable protection for the home.
